SOUTHAMPTON,  
HAMPSHIRE, SO19 9EE.**

**TELEPHONE : 01703 448194.**

## NEWSLETTER NO. 71 SEPTEMBER 1996.

### EDITORIAL.

*Now that Summer is finally over, we can look to a wonderful Winter and a few cosy nights in front of the Tv with a cup of cocoa & watching our favourite UFO programs. As the nights draw in, we will be looking at doing some sky watching this coming few months, so watch this space as they say.*

*I must tell you that your editor has now seen Independence Day twice and will be looking at going a third time if I can find anyone to go with me (I'm scared of the dark that's why !). I cannot tell you how much I enjoyed this film that had its quiet moments, sad moments, its exciting moments, and its jumping out of the skin moments (I certainly jumped sky high at one point, well points actually !). The film had some really funny one liners and the characters I thought made the film. Mind you, I did hear, that when the film was being made, the producer approached the army and believed that having the military on their side would make the film more realistic with their help. They presented the military with the script and the military went away to read it. The military agreed to help, but there was one proviso, that the producer removed all reference in the film to AREA 51. The producer said no, because it was to play a big part in the film. The military said in that case, we will not help. Strange, I thought that the military said that Area 51 did not exist. Why ask the producer to scrub something that according to them, doesn't exist..... Oh boy have the military slipped up.*

*One thing that I found a little hard to swallow was the aliens that were in the film. Sure, they had big oval black eyes, but that's it. They did not fit any descriptions that we have been told of concerning aliens. They had tentacles as limbs and walked around on 2 'ostrich' type legs and they were here to wipe out the human race.*

*I think that if you go to see the film, you have to forget about the script to a certain extent and concentrate on the special effects and if you can see it at a pictures with a stereo Dolby system, then it is a must.*

*One of our members, Brian, has been involved in a rather serious accident involving a car and his motorbike. It appears that his bike is a write off, but luckily Brian escaped with a only few broken bones and bruises. I wish him a speedy recovery, although I understand that it will be around 6 months or so before he is up and running around, go careful Brian and I am sure all group members wish him a speedy recovery.*

*The Oxford conference will soon be upon us (Or probably gone by the time you receive this edition of the newsletter), but there has been a very good response with 18 group members attending the conference. In the next edition of the newsletter I hope to have a small piece about the conference and a review of further conferences planned in England over the next 6 months or so.*

*This month's group meeting (3rd September) was poorly attended compared to previous meetings and we saw only 7 people attend. A number of people did contact me to say that they would be unable to attend and hope to attend the meeting in November. The 7 that did attend enjoyed an evening of watching video footage from Warminster, an update of recent UFO activity in Southampton and a general chat about Ufology in general. We raised £7.50 towards the hire of the hall (£16.50 per meeting) and the short fall will be met with the small group reserve funds, but if figures start falling, then I will have to consider about holding future meetings as the group cannot afford to pay £16.50 every other month out of its reserves (Which stand at around £20). I may have to consider increasing the £1 entry fee to either £1.50 or £20 per meeting.*

*I recently heard that one of Ufology's pioneers in the area of Wiltshire and especially the Town of Warminster recently died. Arthur Shuttlewood, who passed away a couple of weeks ago certainly left a legacy behind him and in the Warminster area. He will be remembered for being in the right place at the right time & if it wasn't for Arthur, then Warminster would of slipped into Ufological oblivion. In Arthur's 80 or so years, he wrote a number of books concerning UFO's in and around Warminster with such books as - The Warminster Mystery (Eyewitness accounts of dramatic UFO sightings in England) (1967), UFO Magic in Motion (1979), The Flying Saucerers (1976), Warnings From Flying Friends (Flying Saucer Revelations) (1968) and More UFOs Over Warminsters (1979). With his books, Arthur catalogued sightings and activities in the market town of Warminster from 1967 - 1979 and if it was not for him, then many people would not be aware of the phenomenon in the area. Although Arthur disappeared from the UFO scene in the 1980's, his legacy will continue and no doubt UFO reports from the area will still be reported through other medias and group.*

## WHAT THE PRESS HAD TO SAY IN APRIL 1995.

### REGIONAL ARTICLES.

- 1.4.95 : Scarborough Evening News : 'Seen a UFO ? We Want to Know!'
- 2.4.95 : Scotland On Sunday : Non Fiction.
- 4.4.95 : South Wales Echo : The Day a UFO Didn't Land here.
- 6.4.95 : Coastal Express : UFO Sightings are on the Increase...
- 10.4.95 : South Wales Echo : Dan O'Neill's no Expert, Either.
- 25.4.95 : Boston Trader : No Title.

### NATIONAL ARTICLES.

- 18.4.95 : The Sun : Gaby's Saucer Concern.

### NEWSPAPER UNKNOWN.

- 16.4.95 : Paper Unknown : No Title.

26.4.95 : ???????? *Evening Gazette* : No Title.

27.4.95 : *Southampton Evening Echo* : *Crop Circle Experts Hails 'Scientific Breakthrough'.*

### PRESS/TV/RADIO MATTERS OVER THE PAST MONTH.

#### PRESS.

20.8.96 : *The Daily Mail* - *Is the truth being kept from us ?*

*This article was concerned with possible parallels with the Sphinx and pyramids in Egypt with the structures on Mars. Also, mysterious doors have been found in the pyramids and one in the Sphinx, that have handles made from an unknown metal. Is NASA covering up something, why does NASA seem not to be interested in the area or do they know more than they are really telling ? An interesting article if you are into the artefacts on Mars.*

22.8.96 : *The Daily Mirror* - *Photos NASA hid for 20 years.*

*This first part of this 2 part article looks at photographs taken by astronauts, that have been kept hidden from the general public by NASA. Photographs in the article have been dismissed by NASA as either meteors, clouds of debris or even huge ice crystals. There are interviews with ex-astronauts who claim to have taken photographs of UFOs or seen them during space missions. Richard Hoagland ends the article with 'It's time for President Clinton to bite the bullet, open NASA's files on all of this, and come clean'.*

23.8.96 : *The Daily Mirror* - *The Aliens Among Us.*

*Part 2 of this item looks at those people that claim actual alien contact and abduction by aliens from outer space. The article looks at the case of forestry worker Bob Taylor, who in 1979 was allegedly 'Attacked' by a UFO and 2 other cases involving time loss and abduction by our little grey neighbours in outer space. A very interesting article and it is about time people take the abduction scenario a bit more serious in my view. Ordinary people appear to be being abducted at will or nurtured over many years.*

25.8.96 : *The News of the World* - Those UFOs ! Were Real After All.

This article concerned itself with looking at patents that the American Government classified and American Constantin Lent's patent of working models of a revolutionary saucer-shaped aircraft. The article looks at the Avro car designed by the USAf and the possibility that the government have patents withheld under the patent act. An interesting thought and I just wonder if the stories about Nazi built UFO's were already on the drawing board long before Lents's 1950 application for his patent ?

25.8.96 : *The News of the World Magazine* - Invasion of the body snatchers - or just tall stories?

This article tells of 3 peoples encounters with aliens from outer space. The first story is Elsie Oakensen's encounter with a UFO and the subsequent loss of 15 minutes of her life she could not account for. The second story is of student James Basil who claims that aliens have visited him regularly for more than 10 years - and they've left behind evidence of their presence and James even recalls being inside their spacecraft. The third story is of James and Pamela Millen who can't account for 160 minutes of their lives. During what seemed no longer than a matter of seconds, they're convinced that James was abducted by aliens. A very interesting article indeed and if you are into alien abductions, then this is a worth while article to read.

10.9.96 : *Southampton Evening Echo* - Aliens or corn flakes ?

Corn circle experts are celebrating a bumper harvest of mysterious manifestations in the South's crop fields.

This summer some of the most spectacular patterns yet seen have appeared overnight in fields of wheat, barley and oilseed rape.

Now researchers have got the job of examining the evidence and sorting out the wheat from the chaff. they say it is possible to tell the difference between circles which have been hoaxed and the genuine article.

The swirled shapes have been appearing in Hampshire and Wiltshire for the past 20 years, getting more complex each summer.

Around 100 shapes have turned up this year - the most complex being two formations at Wiltshire's famous ancient stone circles, Stonehenge and Avebury.

The Avebury pattern was made up of more than 190 circles and measured more than 1,000 feet across.

It represented a complex mathematical symbol and is said to be the most dramatic formation ever to appear.

Hampshire-based circle expert Lucy Pringle said several people had reported strange lights in the sky on the night the pattern appeared.

She said : 'Two children were woken up by flashing lights over this very field. They watched them for some time and then went back to bed. it appears there is a connection between light phenomena and the crop circles'.

An enthusiast Colin Andrews, of Andover, who gave up his job with Test Valley Borough Council to study the circles full-time, is examining a film of UFOs over a corn field in Hampshire.

But the NFU is more sceptical - and is offering a £1,000 reward for information leading to the prosecution of a crop circle hoaxer (Funny thing is, why did Doug and Dave never get prosecuted over their hoaxes as they openly admitted to creating formations in Hampshire and Wiltshire... Strange that ?... Ed).

A spokesman said : 'What was a quaint phenomenon is now mindless graffiti'.

11.9.96 : *The Independent* - Ulster kept in dark by Whitehall secrecy.

This article started to look at the Northern Ireland question and what is the government hiding under the 'UK Eyes Only' rules and why are things being covered by the 30 - 75 years, what have they to hide. Then, tagged on the end of the article - 'The guidelines also relax curbs on files about Unidentified Flying Objects, saying : 'Hitherto it has been the policy not to release the internal distribution on UFO reports. 'In the light of greater openness it has now been agreed that ... this information need no longer be considered defence security sensitive and may (Highlighted by your very suspicious editor !) now be released'. UFO files will now be released for public inspection after 30 years !!! (I wonder what little gems the government has been hiding for the past 30 years ?.... ED).

12.9.96 : *Southampton Evening Echo* - UFOs are filmed carving out a crop circle.

Experts are examining video footage which appears to show four UFOs carving out a crop circle in a wheat field.

Hampshire-based circle enthusiast Colin Andrews has flown out to America with the film which was taken by a UFO watcher at Olivers Castle, in Wiltshire.

If it is genuine, the mystery of the South's crop circles could finally be unravelled ... after 300 years.

Mr Andrews, from Andover, speaking from Connecticut, said the film showed four small glowing, white spheres creating a snowflake-shaped pattern in less than seven seconds.

He said : 'Some extraordinary detail can be seen. It could be amongst the best UFO footage taken.'

The UFO buff who took the film, who does not want to be named, told Mr Andrews that he had been attracted to the field by a trilling noise 'like a cricket'. But already there are doubts over the film's authenticity.

Mr Andrews said : 'A number of leading film analysts will shortly take a look at the make-up of the film. I am told they should easily be able to resolve if this has been faked'.

15.9.96 : *News of the World Magazine* - The Alien Secrets of Area 51.

This article concerned with a TV program called 'Dreamland' on Sky One cable/satellite on September 24 & 25th and an interview with Bob Oechsler (Funny thing is, I thought that he had retired from Ufology... ? .. ED) about Dreamland (Area51).

## TV.

18.8.96 : *Independence Day (The Making Of)* (30 Mins).

As your editor has now seen *Independence Day* on 2 occasions and is looking at a 3rd visit to the pictures to see this fantastic film, I read about this item with some enthusiasm. The item was based in a film studio with a news item based on *Independence Day*, with the news as it was happening. The second half looked at the possibility of life visiting earth with interviews with such people as Whitley Strieber, Carl Sagan and other Ufologists, astronomers and scientists. This was a good program and I only wish that it was on for a full hour, as opposed to the 30 mins running time, but saying that, it was very good.

*23.8.96 : Magic and Mystery Show : Alton Barnes and Alien Tattoos in Southampton*

*This looked at the mystical area of Alton Barnes and the UFO sightings as well as Crop Circles that have appeared and been seen in this mystical part of Wiltshire. There was an interview with a lady who runs a tattoo parlour in Southampton and she told of her experience's involving UFO's and aliens (She claims she had been abducted by aliens). An interesting item and well worth a look at if you have not seen it already.*

*2.9.96 : Sightings - Sprites and Blue Jets & The Outback encounter of the Knowles Family.*

*This item looked at the amazing photographs of strange lights seen above the clouds at very high altitude during thunderstorms, that could explain 'some' UFO reports. The second item reconstructed the UFO encountered by the Knowles family in Australia and interviews with family members.*

*9.9.96 : Sightings - Mexico sighting update.*

*This updated UFO sightings in Mexico that have been shown on video's such as Messengers of Destiny and 2 other video's that are available over the counter. The program included new footage and interviews with the people who took the footage. The footage was very interesting and I was left wondering what is really going on in Mexico.*

*11.9.96 : The Why Files.*

*This edition concerned itself with a look at the 1996 crop circle formations and an interview with Steve Alexander, who a couple of years ago, filmed an object gliding through a field close to a crop circle formation. The object was seen flying over a distant tractor and flying off into the distance. There was nothing new on this program that 'Croppies' did not know already. A good item for those new to the subject, but to us long in the tooth 'Croppies' it was more of the run of the mill material.*

## RADIO.

*Can anyone help me with any further details concerning the following item that was aired on Local and National radio. I have received a number of phonecalls stating that a UFO was seen over Bolton in Lancashire by 100's if not 1,000's of people during the morning rush hour. I understand that the object hovered in the sky over a main road and people were stopping in their cars to get a good look at the object. I was unfortunate not to catch the programs and the next day I scoured the national press, but it appears that they decided not to cover it (Obviously they did not think that it was worthy of national press coverage !!!). Did anyone manage to record any radio item about the sighting, or has anyone out there got any press cuttings about the sighting.. Your editor needs your help.....*

## UFO HOTLINE.

*Charges : 36p STANDARD Rate 48p PEAK Rate.*

MAGAZINE REVIEWS.....

BY ERNIE SEARS.

*Once again an interesting, even disturbing, selection of publications, handed to me by your Editor and group organiser Steve Gerrard. Once again, they left me more knowledgeable, and more confused, in some cases ! Here goes !*

*The Flying Triangle Mystery is aimed at your bookshelves as a reference and update on those enigmatic and profuse craft (I've had a copy myself for months), from the capable hands of Omar Fowler, of the Phenomenon Research Association, and is a thick, bound, 25 page publication, plentifully illustrated with charts, maps, and splendid black and white and coloured drawings of the triangular UFO's. A lot of coverage in Omar's own Derbyshire area but also world-wide makes this a good buy at only £3. Available from Omar Fowler, at 94 The Circle, Sinfen, Derby, DE24 9HR... Be sure to get it while stocks last !*

*OVN1 is Omar Fowler's monthly 'baby', and always well worth subscribing to. The August issue contains an interesting three page article by J.L. Whitear, on the quartz layer and it's effects on energy underneath Stonehenge, plus a drawing by Pat Delgado, and explanation (?) for the gigantic crop circle found there this Summer, from, it seems, the point of view of being hoaxed ? In addition, and amazing UFO sighting over Derby, and such, well worth the price of £1 per monthly issue, see above address.*

*Truth Seeker Review is a new 'un to me, well produced and 44 pages thick, contains a disturbing 'in depth' (no pun intended!) article on 'Underground Bunkers', with photos, how to spot them, what is going on under our very feet, etc ! Reading that they are now powered by nuclear generators, one wonders about those leukaemia 'clusters' and that supposed incident at Greenham Common ! Other items include that 'Aurora' craft, those stone circles and UFO sightings there, The Krull Files, an article studded with facts, names etc, 19 pages long, which I hope is a legpull but please re-assure me, someone ! Much more and at £10.20 for six editions or half that for three from 25 Upper Canning Street, Tonpentre, Mid Glamorgan, South Wales, CF41 7HG is worth trying !*

*Skysearch* carries its usual excellent quota of abductions, crop circles, ancient UFO's, Sightings, and so on, much centred in the area of Sussex but wider afield too. Thought provoking article by Shaun Carr, The Grey Zone, another well known abductee Maria Ward, digs deep into mankind's psyche, etc, 1996 sightings listed impressive, as are the more detailed and illustrated ones. £1.50 quarterly from PO Box 2507, Saltdean, Brighton, BN2 8NE. Tel : 01273 300805.

*UFO Magazine* is a Canadian one, well produced, the May/June 1996 issue being packed with information on implants, remote viewing, those moon edifices, Internet information, an 'up and at 'em' article on our political 'masters' (American, but they're a world-wide virus !), a long overdue 'go' at astronomer Carl Sagan, who appears to have abandoned 'us' !, a critical look at Courtney Brown's book *Cosmic Voyage*, etc etc. It says £32 (foreign dollars) for a bi-monthly yearly subscription, from *UFO Magazine*, PO Box 1053, Swinland, Canada 91041.

*Sightings* Issue 4 contains its usual attractive variety of articles, photos, and the like.. notably an excellent screed on that 1979 Rossendale Valley incident, a speculative account sparked off by that Mars meteorite of what one might find thereon, a good look at Soviet Sightings and who will lift that lid first ! USA, Russia, or Us ? Maybe 'they' will ! More on mutilations, doubts on that 'alien' autopsy, this time supportive !, that *Independence Day* Movie, Nick Pope's column, nice Jenny Randles tribute to the late Ken Phillips, and good letters section etc. From *Rapide Publications*, 14a Union Street, Newton Abbot, Devon, TQ12 2JS. £25 for 12 issues.

*UFO Magazine.. The British one !...* Spotlights the exciting and hopefully genuine Brazilian 'alien' capture incidents, magazine Editor Graham Birdsall was there investigating, another look at those 'alien implants', Russia's religious nutters attacks on Ufologists, more on dreamland, Groom Lake, etc, after *Independence Day*, what next out of Hollywood !, Tony Dodd's article on that North Wales UFO crash, possibly, in 1974, Carl Sagan getting more slugging, this time from Stanton Friedman, readers UFO photos, part 2 of Nick Pope's interview with *UFO Magazine*, unlike others, 'in person' ! And if you want to insure yourself AGAINST 'alien abductions', read on... before it's too late ! A very good issue, in spite of those pint sized Brazilian 'alien' Old Nick lookalikes' ! From your bookshop or newsagents, £1.95 bi-monthly, get it now.

*AREA S1* is the Sheffield UFO Association magazine and the August issue is a startler with an article and cover illustration of that weird Chupacabras creature allegedly running amok in Puerto Rico, another on how UFO Investigators in New York planned to exterminate County Authorities and take over, accusing them of a UFO crash cover-up ! The current UFO 'wave' over Sheffield is spotlighted, Australian sightings, good David Baker article debunking the debunkers (hooray !), another one on those implants Sheffield's Skywatch report, some successes, but many photos taken failed to even turn out ! OK... the magazine, nicely printed, is available from 87 Hawley Street, Sheffield, S1 2EA, at £1 a copy, monthly.

## MAKING CONTACT WITH OTHER GROUPS.

*I recently wrote to 25 groups in the United Kingdom and a couple of groups abroad to try and exchange information. Well to date, I have heard from one group in the UK and 2 other groups, one based in Jersey and the other in Malta (I am currently exchanging newsletters with the group in Malta and a copy of the newsletter will be taken along to the next group meeting for everyone to have a look at). I find it rather strange that other groups will not exchange information or even write to tell you that they are willing to keep in contact. It seems that many groups are happy to be in their own little world and they tend to forget that there are other groups out in the wilderness that are trying to make contact and who knows how beneficial it would be to have a group network and contacts. If I hear from any other of the groups I contacted, then I will include details in my next newsletter.*

### BUFORA NEWSFILE.

*The cost of subscription is £7.00 for 6 issues or £13.00 for 12 issues.*

*Contact :*

*Michael Hudson, Linden Trees, 70 High Street, Wingham, Kent, Ct3 1BJ.*

### Forthcoming Events and Lectures.

*16th-17th November 1996 - Lancashire Aerial Phenomenon Investigation Society,*

*The Lowther Pavilion, Lytham, Near Blackpool,*

*Speakers Include : Jenny Randles, Nick Pope and Philip Mantle.*

*Telephone : 01253 391704 or 01253 404532.*

### SOUTHAMPTON'S FIRST INTERNET CAFE.

*£3.00 per half hour (discount for students) and also training courses - individual & groups.*

*Opening times : 9am - 10pm Monday to Saturday.*

*2pm - 9pm Sundays.*

*Telephone : 01703 635429.*

*Address : 75 Bedford Place, Southampton, Hampshire.*

## UFO SIGHTING/REPORT OVER SOUTHAMPTON 21.8.96.

*Date Of Sighting : Wed 21st August 1996.*

*Approx. Time Of sighting : 1.25pm.*

*Location : Maypole Roundabout, Hedge End, Southampton, Hampshire.*

*The witness was alone in a car, travelling towards Hedge End village at the Maypole roundabout. Whilst the witness was waiting to get onto the roundabout, the witness noticed a bright object high in the sky almost overhead. It was brighter rather like the dazzle of the advert advertising Colgate. It was a completely silver metallic, cigar-shaped object. It was rotating in a clear blue sky but hanging stationary. There was no visible features e.g. wings, portholes, markings etc and the object was viewed for approx. 30 secs and possibly a few hundred foot high. After 30 approx. seconds the object disappeared from view. The witness stopped the car, but the object was no where to be seen in the sky. The witness claims the object was completely metallic like molten silver solder. The glint on the object was brighter than any normal sun reflection & was dazzling to the eye. (See fig. 1)*

## SIGHTING OVER BRISTOL .

*I have heard of an elderly lady who said she saw a ring of lights like huge light bulbs outside her flat at 0145hrs in the morning. She also said the object lit up her flat and there was a dome with coloured lights and another dome on top of that. This sighting happened 18 months ago. Also another woman said she saw the same objects hovering over a school near Halam. In 1978 a classroom full of children saw an egg-shaped UFO hovering over their school. Another man on the local radio (Bristol) said his gran saw lights dancing around the Mendip Hills and he said on a full moon the earth glows and the crystals under the earth rub together and the lights appear (Earth Lights).*

## MR ERNIE SEARS ENCOUNTERS A 'FLYING TRIANGLE' ✓

*The date was the 28th November 1977, the time was 8pm in the evening and a beautifully clear sky. I had gone out into the garden of my Portswood home to let one of the cats out. There was a moon visible far over the South.*

*I gazed around, being somewhat of an amateur astronomer, then up over my head, and stood transfixed!*

*Hovering, perhaps a thousand or so feet up, silent, I saw a metallic looking, triangular, craft (See Fig 2) complete with 'ribs' beneath and 'rivets' of some kind and weird coloured lights around its edges. Having seen a UFO being chased by 2 RAF meteor jets in the 1960, in daylight, and having subsequently studied the subject deeply since then, I was not 'new' to such craft.... But this was big, awesomely silent, and I got the strange impression that 'it' was looking down at me.*

*I turned my head and yelled out for my wife indoors to come and look at this thing. Looking back up at the sky, seconds later, it was empty ! I gazed around horizon to horizon.. Nothing ! just that moon over in the South.. Was I going nuts ?????*

*Still reeling from the shock, I ran indoors and telephoned the local airport at Eastleigh.... 'nothing up' was the control towers answer. I rang the nearby police station.. No reports. then the local Echo newspaper desk editor... Ditto !*

*I rang, on sheer off chance, a friend of mine, a musician who was a UFO 'buff' and who I thought MIGHT have been out in his garden, skywatching. No answer. I did not know, then, where to turn, my mind in a turmoil*

*Later I rang the Royal Observatory at Herstmonceux, Sussex, to be greeted by a voice with a chuckle in it, assuring me that, no, no, 'triangular spaceships' were in our skies !*

*None of this put my mind at rest ! I went to bed that Monday night disturbed that I might be losing my marbles !*

*The next morning I tried phoning my friend again.. and got through ! Before I could get any further than asking if he was out in his garden at 8pm the previous evening, he broke in to say, no, he wasn't, but he knew what I was going to say ! He went on to tell me he was in a car, driving along the M27 at Bursledon (Near Southampton), just 5 miles from my own location, when both he, and the 4 other musicians, going to a local radio broadcast on jazz in Portsmouth, spotted 'This huge triangle, dashing about the clear sky in short bursts of terrific speed, seemingly leaving a short trail of 'light' as it did so, periodically stopping short and hovering !'.*

*Deciding that hanging out of car windows on a motorway was just a trifle risky, they stopped the vehicle on the hard shoulder, and all got out, standing open mouthed, excitedly shouting as the 'craft' continued its manoeuvres until they had to resume their journey, being due at the radio station at a certain time.*

*When I heard this, I WAS relieved ! I wasn't going nuts after all !*

*Mr Ernie Sears (Southampton UFO Group member).*

### ANSWERS TO LAST MONTHS QUIZ.

1. Dreamland
2. Kenneth Arnold.
3. Mandelbrot.
4. Cydonia.
5. Yuri Gagarin.
6. Tully.
7. Michael & Mary.
8. Mary.
9. Neil Armstrong.
10. Project Blue Book.
11. Wilhelm Reich (Due to an editorial cock up I have removed this question from the quiz as the question should of read 'What was the name of the Austrian (Not Australian as I typed it !!!!! ) scientist who discovered orgone radiation.
12. Killing Joke.

*Out of all the entries (Well 2 in actual fact !!) the winner of this competition was Mr Tom Trubridge with a score of 9 out of 11. Well done Tom, and I will be in contact regarding your prize.*

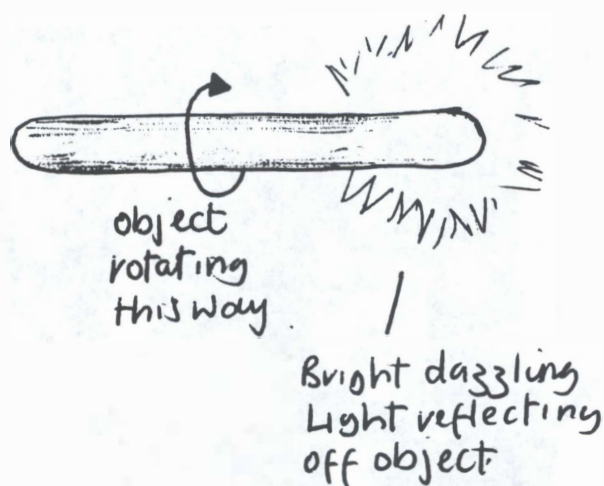

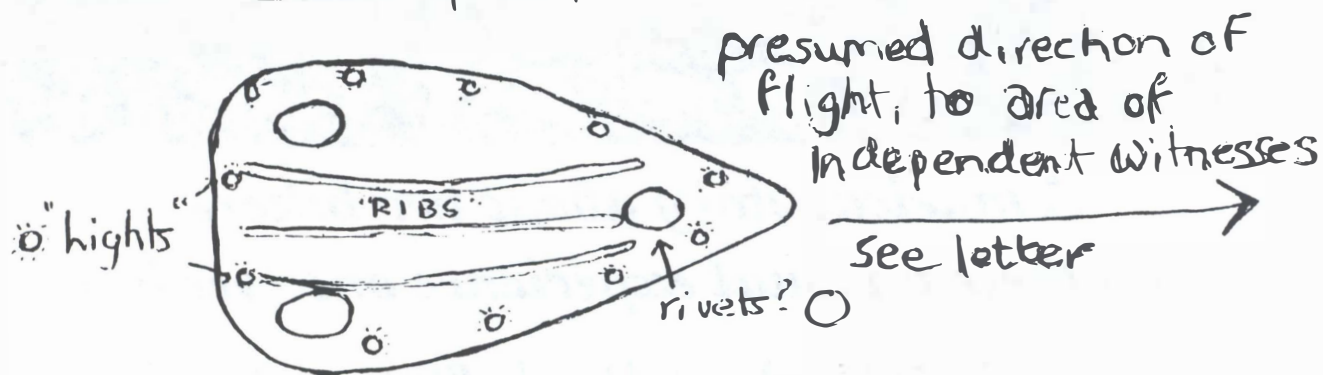

FIG 1

28<sup>th</sup> November, 1944, 8.00pm, Portsmouth, Southampton  
duration: seconds - perhaps 10 - 15'

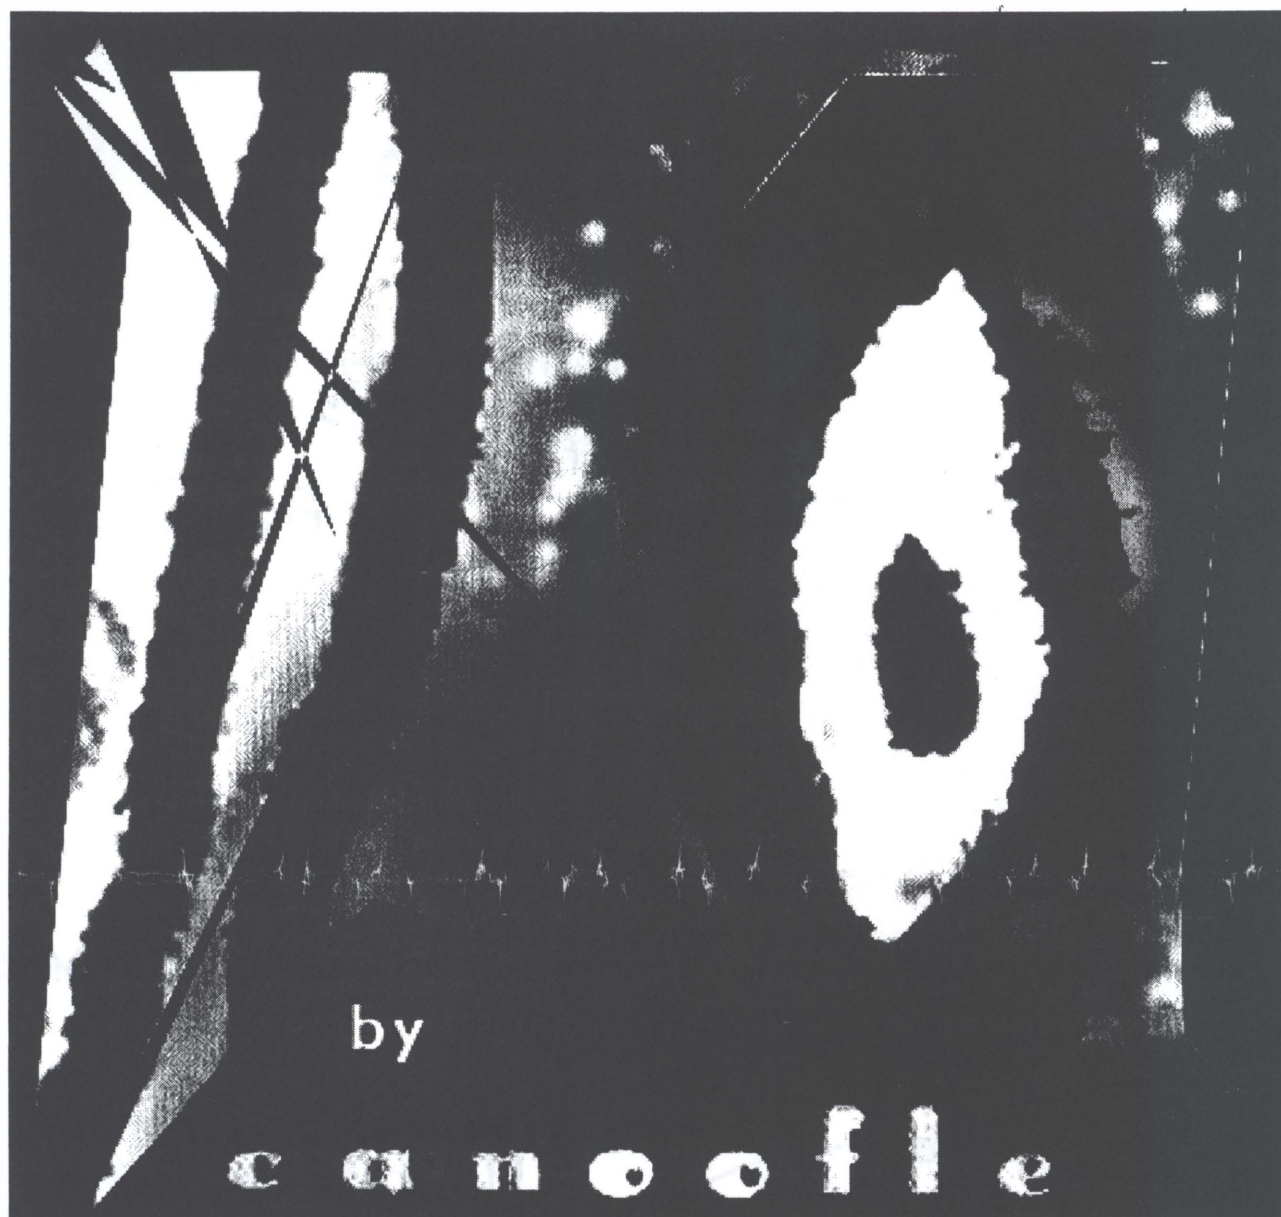

small "naemic" lights around edges, pale, non-descript colour. perhaps not "switched on" until speeding off?

"Ribs", curved along length of craft  
large "rivets" (?) as shown.

FIG 2.

# *Unorganized Flying Objects*

by

c a n o o f l e

*A musical story about two bikers  
and their unusual experience one evening.*

*Performed in a brand new/old style: Electronic Ruralism  
Where sci-fi synthesizer meets down-home banjo.*

Lazy Eight Records, 1678 Shattuck Ave., ste. 241, Berkeley, CA 94709

## \*U\* UFO DATABASE

\*U\* The most COMPLETE, BEST RESEARCHED UFO SOFTWARE for PC AVAILABLE ANYWHERE at ANY PRICE. \* Over 14,400 quality sightings from 240 sources. (\* as of date below. \*U\* is constantly updated and revised.)

EXCELLENT VERSATILE MAPS. Data filtered by any of 90+ Search Paths;  
ZOOM SHIFT JUMP. LAYERED MAPS with up to 4 different data sets.  
TRAJECTORY maps. Sightings in rotation. One day maps.

SEARCH and EDIT FILES or perform 10+ STATISTICS FUNCTIONS with the same Search Filters. Sightings list sources with Page or Issue numbers.

**ASTRONOMICAL CLOCK:** Shows ALL planetary data in REALTIME/REALSPACE, for ANY SIGHTING in database, or any HYPOTHETICAL DATE, TIME and PLACE.

```
>> EASY TO USE.  MOUSE SUPPORT for menus/screens.  50+ HELP routines.
>> EASY to INSTALL.  CLEAR COMPLETE DOCUMENTATION.  Online help.
```

" -- Remarkable as a source of documentation -- clearly surpasses all previous efforts -- carefully screened UFO data -- the graphic and mapping facilities are simply superb. " - Jacques Vallee 23 NOV 94.

" -- a fantastic job -- " - Dominique Weinstein, LUMIERES dans la NUIT.

" -- blows everyone else out of the game." Dr. Bruce Maccabee 1996

\*U\* received a glowing reviews in the Febr'95 MUFON UFO JOURNAL, LDLN-France, Swedish and Brazilian Journals. Map screens aired nationwide

Sources include virtually every recognized UFO writer and researcher. Many of these are clients. Books, journals, downloads, reports, and private research papers are all rigorously CROSS-CHECKED for accuracy.

Registered Users may order half-price upgrades at any time; generally after 8 to 12 months when new features and data justify the cost.
